**FY 64 NIS Production Schedule**

25X1A9a 1. [REDACTED] called yesterday saying his Medics (former MIIA, now DIA) wanted to add two more Sections 45 to their FY 64 schedule. Although the two items would not be due until the following fiscal year (FY65), they needed to be programmed at this time because of the lead times desired. The items they want to add are: NIS 33 (Iran) for April, and NIS 21 (Yugoslavia) for May. This morning Dr. [REDACTED] agreed 25X1A9a to this arrangement.

25X1A9a 2. [REDACTED] also wondered why in the Section 64 line-up NIS 22 was substituted for NIS 19. I found that this substitution had been made in the 19 December 1962 discussion paper and agreed to by the ORR NIS Coordinator, [REDACTED] during scheduling interviews on 11-12 February. The obvious reason was to get all of the sections of Chapter VI into production during the same fiscal year.

25X1A9a 3. All of this information was passed on this morning by telephone to [REDACTED] He saw no difficulty in making the adjustments.
